# The Manor Weekly

## Feb. 23 to Mar. 1, 2026

### Shift in Dining Tables

You may have noticed that some of the tables in the dining room have shifted away from the windows. This is to avoid having anyone sitting on top of or very close to the floor vents.

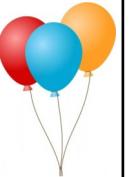

The air coming out of the vents is causing discomfort to some, and is an ongoing problem which escalates in the warmer months.

This will require resident walkers to be taken out of the dining area during meal service. Staff is instructed to remove walkers. We ask that you be cooperative of this and just simply ask one of the staff to bring your walker back to you when you need it.

This new positioning does create less space around the tables in the middle of the room, however it does provide plenty of space to walk around the tables near the windows. You may need to get to your table using a different route than you are used to.

Thank you for your cooperation.

### Happy 100th Birthday Alice!
